**COMMENTS**

**Results**

**Overall**

- Group EBITDA and PAT grew by 65% and 94% respectively mainly due to i) larger sales volumes driven by increased capacities in Tanzania and Kenya and better sucrose levels in Tanzania and Mauritius and ii) improved sugar prices in all markets.
- PAT was further positively impacted by gains on the disposal of land amounting to Rs47M in the quarter.

**Agri and Sugars**

- Mauritian operations recorded a marked improvement against the comparative quarter supported by a higher cane tonnage harvested and better sucrose levels associated with a favourable price trend.
- Tanzanian sugar operations also achieved better results mainly explained by an enhanced production capacity and higher sucrose levels translating into larger sales volumes and firmer prices.
- Transmara Sugar Company Ltd (TSCL) in Kenya showed very encouraging performance as it was positively impacted by its recently enhanced production capacity and improved sugar prices. Results for the first quarter last year are not comparable as TSCL was consolidated as from 1st August 2015.

**Energy**

- Both Alteo Energy Ltd and Consolidated Energy Ltd benefitted from a higher offtake during the quarter.

**Property and hospitality**

- The results of the cluster still reflect the reduced inventory pending the launch of the next phases at Anahita.
- The cluster results were further adversely affected by the closure of Anahita The Resort for refurbishment over 4 months.
